

IT'S A TACO PARTY!

Materials: Colored felt in yellow, brown, red, green, and black (colored paper could also work), Scissors, Glue, Marker, a Large cup.

1

Create the Taco Shell.

Trace the circle around the opening of the cup on your yellow felt. Cut out the circle.

2

Make the Taco Fillings.

Draw large freehand shapes on your brown and red felt. Keep these wider than the yellow taco shell so they stick out the sides. Cut green squiggle lines for lettuce.

3

Stuff the Taco.

Place your taco fillings inside your taco shell, layering brown, red, then green (biggest to smallest).

4

"Cook" the Taco

Glue all of the fillings in place. TIP: Place something heavy on top of your taco while the glue dries. This may take a few hours.

5

Enjoy!

Add a smiley face to your taco shell and enjoy!
